EDUCATION

Northeastern University <i>Graduate Certificate in Product Management</i>	Boston, MA <i>Expected: Sept. 2026 – April 2027</i>
Northeastern University <i>BS, Computer Science & Business Administration, Concentration in Fintech</i>	Boston, MA <i>Sept. 2021 – July 2025</i>

EXPERIENCE

AI Makerspace Student Fellow <i>Northeastern University AI Makerspace, in partnership with Microsoft</i>	Oct. 2026 – Present <i>Boston, MA</i>
• Scoped AI-native builds for visitors, from model and stack selection to voice agents, RAG, and deployment • Debugged agent workflows end to end, from prompting and tool calls to evals, model routing, and inference • Co-designed introductory AI workshops and live tool demos for students, faculty, and staff	
Associate Forward Deployed Product Manager <i>Pegbo</i>	Mar. 2026 – Aug. 2026 <i>Remote, US</i>
• Designed discovery-to-award journeys and AI-native positioning on deployed FastAPI/Postgres backends • System-of-record → system-of-action: Voice/AgentMail/RCS agents, sequence engine, evals → HITL; -40% triage • Turned fuzzy asks into scoped, prioritized work for an agent-native 2–5 engineer pod across three product surfaces • Originated a 0-to-1 partnership with Modulate, whose voice-understanding tech powers the calling agent • Worked client and design-partner calls with the co-founders, converting use cases into shipped features	
Customer Success Manager Intern <i>Mindbox</i>	Aug. 2025 – Dec. 2025 <i>Limassol, Cyprus</i>
• Drove launches and campaigns for mid-market clients on a CDP/martech platform • Translated client needs into technical integration specs for engineering • Owned day-to-day stakeholder comms, tracking client status, objectives, and metrics	
Alpha Tester <i>New York Browser Company</i>	Apr. 2025 – July 2025 <i>New York, NY</i>
• Stress-tested an AI browser agent for prompt-injection and edge-case failures • Verified the agent stayed predictable without disrupting standard browsing • Contributed to PRD/bug report creation and acceptance testing for AI-agent features	
Product Management Intern <i>Newo.ai</i>	May 2024 – Sept. 2024 <i>San Francisco, CA</i>
• Sales-engineered SMB prospects on an AI-agent platform: scoped needs and tailored POC workflows • Crafted the customer onboarding experience for a partner-focused GTM strategy • Built competitor, partnership, and metrics dashboards to inform GTM/Product	
Product Management Intern <i>GoMobile.ai</i>	Jan. 2024 – May 2024 <i>Dubai, UAE</i>
• Streamlined collaboration by implementing a Figma/Google Drive API integration, saving up to 200 hrs/month • Contextually translated a geospatial database of over 2.3 million symbols with an LLM-powered translation agent • Conducted CustDev in order to optimize internally-facing tools; oversaw development sprints	
Associate Consultant <i>Elevate Consulting, Northeastern University</i>	May 2023 – Jan. 2024 <i>Boston, MA</i>
• Researched blockchain solutions for client's B2B trade finance business; proposed integration with <i>Centrifuge.io</i> • Facilitated client meetings to sync on scope, granularity and deliverables	

TECHNICAL SKILLS

AI: Agent-native development and frameworks, evals, production voice agents, RAG, model routing, local inference
Tools: Claude Code, jcode, Figma, Excalidraw, Linear, PostHog, Postman, Excel
Languages: Python, TypeScript, SQL, Russian, and some French
